

1 Checklist

Check your package contents. It should contain the items shown here:

If you don't have everything, contact Aeneas immediately at 731.554.9200.

Technical Support:

If you have any questions or run into any difficulty, please call Aeneas technicians at 731.554.9200 or e-mail helpdesk@aeneas.com

Note the serial number (SN;) of your Gateway. It is located on the label on the bottom of the Gateway below the model number. You will need the Gateway's serial number if you need to call for technical support.

NOTE: Any additional devices such as cordless phones, answering machines, cable boxes, etc. require an additional filter. If filters are not on additional devices it can cause failure of DSL Service. Contact Aeneas if you need an additional filter.

2 Connect Your Equipment

When all of your connections are made, your connections should look like this:

Rear View

NOTE: You will need an extra hub or switch if more Ethernet ports are needed.

Any additional devices such as cordless phones, answering machines, cable boxes, etc. require an additional filter. **If filters are not on additional devices it can cause failure of DSL Service.**

Front View

LED	Behavior
Power	Green when power is on. Red if device malfunctions.
Ethernet	Solid green when connected. Flashes green when there is activity on the LAN.
DSL	Solid green when Internet connection is established.
Internet	Solid green when Gateway is connected. Flashes green when transmitting or receiving data on the WAN port.
